Federal Highway Administration

[Docket No. FHWA-2022-0032]

Renewal Package From the State of Alaska to the Surface Transportation Project Delivery Program and Proposed Memorandum of Understanding (MOU) Assigning Environmental Responsibilities to the State

AGENCY: Federal Highway Administration (FHWA), Department of Transportation (DOT).

ACTION: Notice; request for comments.

SUMMARY: This notice announces that FHWA has received and reviewed a renewal package from the Alaska Department of Transportation & Public Facilities (DOT&PF) requesting renewed participation in the Surface Transportation Project Delivery Program (Program). This Program allows for FHWA to assign, and States to assume, responsibilities under the National Environmental Policy Act (NEPA), and all or part of FHWA's responsibilities for environmental review, consultation, or other actions required under any

Federal environmental law with respect to one or more Federal highway projects within the State. The FHWA determined the renewal package to be complete and developed a draft renewal MOU with DOT&PF outlining how the State will implement the Program with FHWA oversight. The public is invited to comment on DOT&PF's renewal package, which includes the draft renewal MOU that describes the proposed assignments and assumptions of environmental review, consultation, and other activities.

DATES: Please submit comments by March 3, 2023.

ADDRESSES: You may submit comments, identified by DOT Document Management System (DMS) Docket Number FHWA-2022-0032, by any of the methods described below. To ensure that you do not duplicate your submissions, please submit them by only one of the means below. Electronic comments are preferred because Federal offices experience intermittent mail delays from security screening.

- *Federal eRulemaking Portal:* Go to www.regulations.gov and follow the online instructions for submitting comments.
- *Facsimile (Fax):* 1-202-493-2251.

An electronic version of the proposed renewal MOU may be downloaded by accessing the DOT DMS docket, as described above, at <https://www.regulations.gov>.

Background

Section 327 of Title 23, United States Code (U.S.C.), allows the Secretary of the DOT to assign, and a State to assume, the responsibilities under the NEPA (42 U.S.C. 4321 *et seq.*) and all or part of the responsibilities for environmental review, consultation, or other actions required under certain Federal environmental laws with respect to one or more Federal-aid highway projects within the State. The FHWA is authorized to act on behalf of the Secretary with respect to these matters.

The DOT&PF entered the Program on November 13, 2017, after submitting its application to FHWA, obtaining FHWA's approval, and entering into a MOU in accordance with 23 U.S.C. 327 and FHWA's application regulations for the Program (23 CFR part 773).

On May 15, 2016, prior to submittal of its application to FHWA, DOT&PF published in the Alaska Administrative Register and solicited public comment on its draft application to participate in the Program. After considering and addressing public comments, DOT&PF submitted its application to FHWA on July 12, 2016. The application served as the basis for developing the MOU identifying the responsibilities and obligations DOT&PF would assume. The FHWA published a notice of the draft MOU in the **Federal Register** on August 25, 2017, soliciting the views of the public and Federal agencies on FHWA's preliminary decision to approve the application. Following the comment period, FHWA and DOT&PF considered comments and proceeded to execute the MOU (2017 MOU). Effective November 13, 2017, DOT&PF assumed FHWA's responsibilities under NEPA, and the responsibilities for reviews under other Federal environmental requirements. The MOU was amended on August 20, 2020, to clarify the categories of excluded projects and to reflect that DOT&PF had assumed responsibility for the environmental review of the three projects (Gravina Access, Juneau Access, and Sterling Highway) that were excluded from assignment in the 2017 MOU.

On May 11, 2022, after coordination with FHWA, DOT&PF submitted a renewal package in accordance with the renewal regulations in 23 CFR 773.115. On September 13, 2022, DOT&PF sent a letter requesting further discussion on additional language in the renewal MOU. In a letter dated October 14, 2022, FHWA granted an extension of the MOU until March 13, 2023.

Under the proposed renewal MOU, FHWA would assign to the State, through DOT&PF, the responsibility for making decisions on highway projects within the State of Alaska that are proposed to be funded with Title 23 funds or otherwise require FHWA approval, and that require preparation of a categorical exclusion determination, environmental assessment (EA), or environmental impact statement (EIS). Excluded from assignment are any Federal Lands Highway projects authorized under 23 U.S.C. 202, 203, 204, and Section 1123 of the Fixing America's Surface Transportation Act (Pub. L. 114-94), unless such projects will be designed and constructed by DOT&PF; any project that crosses or is adjacent to international boundaries; projects under the Recreational Trails Program (23 U.S.C. 206); Denali Commission projects; Shakwak Program projects; any projects advanced by direct recipients other than DOT&PF; privately funded or other Agency funded projects requiring NEPA review as part of Interstate access approvals, unless such projects will be designed and constructed by DOT&PF; NEPA review for private requests for changes in controlled access, unless such projects will be designed and constructed by DOT&PF; and projects designed and constructed by FHWA under a 23 U.S.C. 308 agreement between the FHWA Western Federal Lands Highway Division and DOT&PF.

The assignment also would give DOT&PF the responsibility to conduct the following environmental review, consultation, and other related activities:

Air Quality

- Clean Air Act, 42 U.S.C. 7401-7671q, with the exception of project level conformity determinations

The proposed renewal MOU would allow DOT&PF to continue to act in the place of FHWA in carrying out the environmental review-related functions

described above, except with respect to government-to-government consultations with federally recognized Indian Tribes. The FHWA will retain responsibility for conducting formal government-to-government consultation with federally recognized Indian Tribes, which is required under some of the listed laws and E.O.s. The DOT&PF will continue to handle routine consultations with the Tribes and understands that a Tribe has the right to direct consultation with FHWA upon request. The DOT&PF also may assist FHWA with formal consultations, with consent of a Tribe, but FHWA remains responsible for the consultation. The DOT&PF also will not assume FHWA's responsibilities for conformity determinations required under Section 176 of the CAA (42 U.S.C. 7506) or any responsibility under 23 U.S.C. 134 or 135, or under 49 U.S.C. 5303 or 5304.

The MOU content reflects DOT&PF's desire to continue its participation in the Program. The FHWA and DOT&PF have agreed to modify some of the provisions in the MOU to, among other things: clarify the categories of projects excluded from assignment; designate a Senior Agency Official at DOT&PF consistent with 40 CFR 1508.1(dd); remove auditing requirements; revise monitoring requirements; update record retention requirements; provide for enhanced reporting to FHWA on issues including environmental justice analysis and associated mitigation, where applicable; revise provisions related to data and information requests; and revise provisions related to FHWA-initiated withdrawal of assigned projects.

A copy of the proposed renewal MOU and renewal package may be viewed on the DOT DMS Docket, as described above, or may be obtained by contacting FHWA or the State at the addresses provided above. A copy also may be viewed on DOT&PF's website at <https://dot.alaska.gov/stwddes/desenviron/resources/nepa.shtml>. The FHWA Alaska Division, in consultation with FHWA Headquarters, will consider the comments submitted when making its decision on the proposed MOU revision. Any final renewal MOU approved by FHWA may include changes based on comments and consultations relating to the proposed renewal MOU and will be made publicly available.

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2022-0038]

Qualification of Drivers; Exemption Applications; Hearing

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), Department of Transportation (DOT).

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to exempt 15 individuals from the hearing requirement in the Federal Motor Carrier Safety Regulations (FMCSRs) to operate a commercial motor vehicle (CMV) in interstate commerce. The exemptions enable these hard of hearing and deaf individuals to operate CMVs in interstate commerce.

DATES: The exemptions are applicable on January 30, 2023. The exemptions expire on January 30, 2025.

FOR FURTHER INFORMATION CONTACT: Ms. Christine A. Hydock, Chief, Medical Programs Division, FMCSA, DOT, 1200 New Jersey Avenue SE, Room W64-224, Washington, DC 20590-0001, (202) 366-4001, fmcsamedical@dot.gov. Office hours are from 8:30 a.m. to 5 p.m. ET, Monday through Friday, except Federal holidays. B. Privacy Act

In accordance with 49 U.S.C. 31315(b)(6), DOT solicits comments from the public on the exemption requests. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov. As described in the system of records notice DOT/ALL 14 (Federal Docket Management System), which can be reviewed at <https://www.transportation.gov/individuals/privacy/privacy-act-system-records-notices>, the comments are searchable by the name of the submitter.

II. Background

On December 20, 2022, FMCSA published a notice announcing receipt of applications from 15 individuals requesting an exemption from the hearing requirement in 49 CFR 391.41(b)(11) to operate a CMV in interstate commerce and requested comments from the public (87 FR 77915). The public comment period ended on January 19, 2023, and no comments were received.

FMCSA has evaluated the eligibility of these applicants and determined that granting exemptions to these individuals would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved by complying with § 391.41(b)(11).

The physical qualification standard for drivers regarding hearing found in § 391.41(b)(11) states that a person is physically qualified to drive a CMV if that person first perceives a forced whispered voice in the better ear at not less than 5 feet with or without the use of a hearing aid or, if tested by use of an audiometric device, does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz, and 2,000 Hz with or without a hearing aid when the audiometric device is calibrated to American National Standard (formerly ASA Standard) Z24.5-1951.

This standard was adopted in 1970 and was revised in 1971 to allow drivers to be qualified under this standard while wearing a hearing aid (35 FR 6458, 6463 (Apr. 22, 1970) and 36 FR 12857 (July 8, 1971), respectively).

III. Discussion of Comments

FMCSA received no comments in this proceeding.

IV. Basis for Exemption Determination

Under 49 U.S.C. 31136(e) and 31315(b), FMCSA may grant an

exemption from the FMCSRs for no longer than a 5-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The statutes also allow the Agency to renew exemptions at the end of the 5-year period. However, FMCSA grants medical exemptions from the FMCSRs for a 2-year period to align with the maximum duration of a driver's medical certification.

The Agency's decision regarding these exemption applications is based on relevant scientific information and literature, and the 2008 Evidence Report, "Executive Summary on Hearing, Vestibular Function and Commercial Motor Driving Safety." The evidence report reached two conclusions regarding the matter of hearing loss and CMV driver safety: (1) no studies that examined the relationship between hearing loss and crash risk exclusively among CMV drivers were identified; and (2) evidence from studies of the private driver's license holder population does not support the contention that individuals with hearing impairment are at an increased risk for a crash. In addition, the Agency reviewed each applicant's driving record found in the Commercial Driver's License Information System, for commercial driver's license (CDL) holders, and inspections recorded in the Motor Carrier Management Information System. For non-CDL holders, the Agency reviewed the driving records from the State Driver's Licensing Agency. Each applicant's record demonstrated a safe driving history. Based on an individual assessment of each applicant that focused on whether an equal or greater level of safety would likely be achieved by permitting each of these drivers to drive in interstate commerce, the Agency finds the drivers granted this exemption have demonstrated that they do not pose a risk to public safety.

Consequently, FMCSA finds further that in each case exempting these applicants from the hearing standard in § 391.41(b)(11) would likely achieve a level of safety equal to that existing without the exemption, consistent with the applicable standard in 49 U.S.C. 31315(b)(1).

V. Conditions and Requirements

The terms and conditions of the exemption are provided to the applicants in the exemption document and include the following: (1) each driver must report any crashes or accidents as defined in § 390.5T; (2) each driver must report all citations and
